Scottsdale, AZ 85260

Dear Dr. Kalla:

As representative of the officers of our Desert Vista Chapter of ANNA, I would like to thank you for agreeing to do the presentation "Beginning the Journey of Esoteric Spiritual Science and Integrated Modern Holistic Healing Medicine Incorporating Spiritual Useful Tools to Protect the Healthcare Provider: Part I of VII to be given quarterly on Esoteric Healing Science". The first presentation is scheduled for May 2, 2002. We are planning to have registration and a buffet from 5:30 to 6:30PM, and the presentation to follow for two hours, followed by a question and answer period. I am happy to inform you that this educational activity has been reviewed by the ANNA Continuing Education Approval Board (CEAB), and has been approved for 2.4 contact hours.

We are also appreciative of your suggestion to do a spiritual retreat for nurses in the future, and are anxious to work with you on the plans.

It has been a pleasure making preparations with you for this upcoming presentation, and we are looking forward to the months ahead.

I would also like to thank you so much for your gracious and generous offer to utilize the university for your presentation, as well as future Desert Vista Chapter meetings and/or presentations. It would certainly save the chapter considerably in expenses for room/facility rentals, and it would provide a lovely, peaceful environment conducive to working together.

Respectfully yours,

Frances N. Allen-Hunter, RN, BSN, CNN
